

This way, even the rush hour's fun

The YBR125 is a motorcycle with the power to take you where you want to go. Eager to please, this punchy 4-stroke will happily propel you around city streets with its smooth fuel injection and five-speed gearbox. It features a refined instrument panel, advanced muffler design, passenger grab bars and tank covers on the side for protection.

Benefiting from a light, diamond-shaped chassis, the YBR125 offers controlled handling and effective suspension for a reassuring ride. Braking comes courtesy of a front disc and rear drum brake, and a sculpted dual seat guarantees comfort.

Built for easy-going performance and reliability, the YBR125 won't let you down.

- Reliable, fun performance
- Fuel-injected, air-cooled 125cc engine
- Lightweight diamond-shaped steel chassis
- Front disc brake for smooth stopping
- Clear analogue instrument panel with RPM meter
- Roomy, dual seat with luggage rack

Yamaha 125cc: the all-round experience.

At Yamaha we believe you get out what you put in, and with over half a century of innovation in motorcycle manufacture that means some pretty special machines. The 125cc range embodies the values of freedom, fun and fulfilment, each one built with the same passion that comes from decades of competing and winning at the highest level.

Forging new technology and bringing it to the road is what Yamaha is all about. Our 125s do more than just look the business, they do the business - day in, day out. Covering every need from simple economy to custom luxury, they'll take you places other 125s wouldn't dare.

Economical 4-stroke, fuel-injected engine

The YBR125 runs a 4-stroke, fuel-injected engine bringing the dual benefits of cutting back on emissions and delivering a smooth throttle response.

Lightweight, diamond-shaped chassis

Weighing in at 125 kg, the diamond-shaped steel chassis of the YBR125 is rugged yet lightweight. The combination delivers assured road handling and easy steering, as well as great suspension for a more comfortable ride.

Smooth braking

A powerful 245 mm single-disc front brake works in tandem with a 130 mm drum rear brake to deliver smooth, effective stopping. Whatever the conditions, riders can put their faith in Yamaha's advanced engineering.

Roomy, dual seat

Whether you're riding solo or with a passenger, the sculpted dual seat offers plenty of space to find a comfortable riding position that works for you. Grab rails on the rear luggage carrier mean you can both relax and enjoy the journey.

Clear analogue instrument panel with RPM meter

The YBR125 features modern-design analogue instrumentation including an RPM meter, which helps when getting to know the engine, and a speedometer. A fuel gauge completes the easy-to-read dash setup.

Alloy wheels

The YBR125's 5-spoke cast alloy wheels don't just look good, by minimising unsprung weight they contribute to the bike's lightweight and agile handling.

Engine	
Engine type	air-cooled, 4-stroke, SOHC, Forward-inclined single cylinder, 2-valve
Displacement	124cc
Bore x stroke	54,0 mm x 54,0 mm
Compression ratio	10,0 : 1
Maximum Power	7,5 kW (10PS) @ 7.800 rpm
Maximum Torque	9,6 Nm (0,98 kg-m) @ 6.000 rpm
Lubrication system	Wet sump
Carburettor	Fuel Injection
Clutch Type	Wet, Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh, 5-speed
Final transmission	Chain

Chassis	
Frame	Diamond Shaped
Front suspension system	Telescopic forks
Front travel	120 mm
Caster Angle	26°
Trail	90 mm
Rear suspension system	Swingarm
Rear Travel	105 mm
Front brake	Single Disc, Ø 245 mm
Rear brake	Drum, Ø 130 mm
Front tyre	2,75-18 42P
Rear tyre	90/90-18 M/C 57P

Dimensions	
Overall length	1.985 mm
Overall width	745 mm
Overall height	1.080 mm
Seat height	780 mm
Wheel base	1.290 mm
Minimum ground clearance	160 mm
Wet weight (including full oil and fuel tank)	125 kg
Fuel tank capacity	13,0 litres
Oil tank capacity	1,2 litres

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements. Yamaha Genuine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube® and BYE® helmets*. Yamalube® is our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you ride. Besides functional and style accessories, Yamaha offers a range of high quality, innovative riding gear designed to keep you comfortable and protected, both on- and off-road. An extensive range of casual wear is also available. For more information go to: www.yamaha-motor-acc.com

Always wear a helmet, eye protection and protective clothing. Yamaha encourages you to ride safely and respect fellow riders and the environment. Specifications and appearance of Yamaha products shown here are subject to change without notice and may vary according to requirements and conditions. For further details, please consult your Yamaha dealer. Colours may vary from country to country. Please consult your Yamaha dealer for further details. * BYE® helmets are sold in most European countries, available exclusively through Yamaha's official dealer network.
